EDUCATION

- **Doon University**, Dehradun
B.Tech in Computer Science Engineering
CGPA : 8.78 2024 - 2028

PROJECTS

AI Interview Platform — React, Node.js, Express.js, MongoDB, Gemini AI 2026

- Developed a **full-stack AI-powered interview platform** with responsive frontend and scalable backend architecture.
- Integrated **Gemini AI** to generate interview questions, feedback, and skill-gap analysis dynamically.
- Implemented authentication systems, API handling, database integration, and real-time user workflows.
- Focused on clean UI/UX, performance optimization, and seamless interaction between frontend and backend.

CorpPortal — Html, Css, Js, Php, Sql 2026

- Developed a corporate employee portal with authentication, dashboard management, and responsive user interface.
- Implemented frontend-backend integration using REST APIs and MongoDB database operations.
- Built multiple modules for employee data handling, navigation, and workflow management.
- Focused on clean UI design, responsive layouts, and scalable full-stack architecture.

Machine Learning AI Experiments — Python, Scikit-learn, Jupyter Notebook 2026

- Worked on beginner-level **machine learning projects** involving data preprocessing, classification, and model evaluation.
- Explored AI workflows, dataset handling, and predictive modeling concepts using Python libraries.
- Practiced model training, testing, and performance analysis through hands-on experimentation.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, JavaScript
- **Frontend:** HTML, CSS, PHP, SQL, Responsive Design, Glassmorphism UI, CSS Animations
- **Tools & Technologies:** Git, GitHub, VS Code, Google AI Studio, SQLite
- **Concepts:** Data Structures, OOP, Frontend Development, AI Assistant Development

COURSEWORK

- Data Structures and Algorithms (DSA)
- Object-Oriented Programming (OOP)
- Python Programming
- Database Management Systems (DBMS)
- Computer Networks
